*Alessandra Congia*

IL TECNICO:

Ing. Ir. Mattia Concas

## PROFILO INTERVENTO - ADOTTATO -

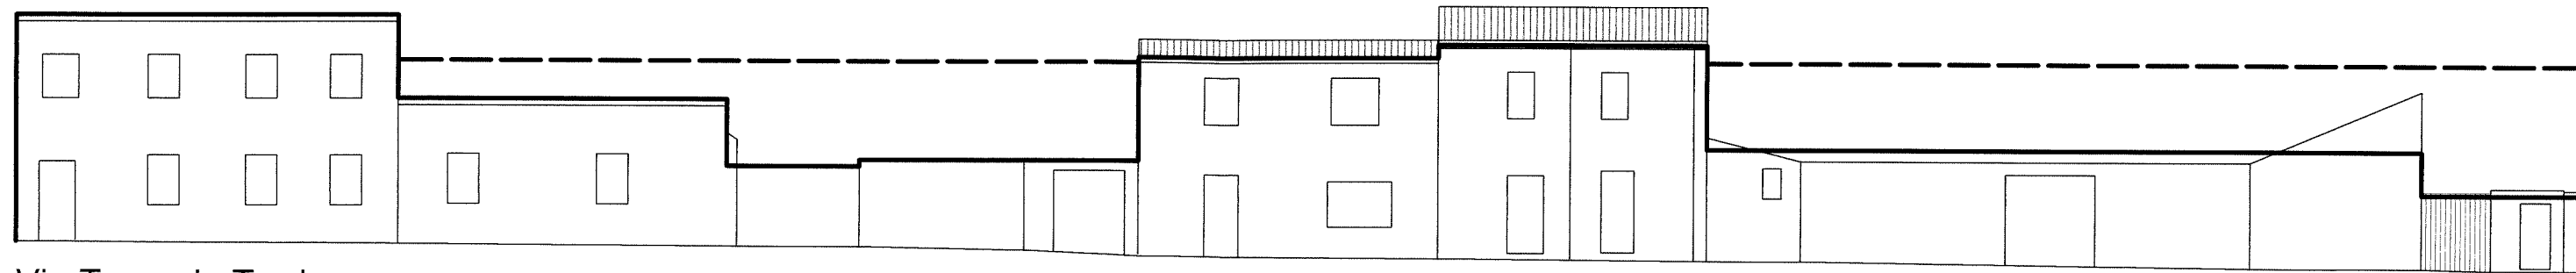

This architectural drawing shows a long, low building facade with a variety of window shapes and sizes. On the left, there is a section with a gabled roof and a small square window. Next to it is a section with a flat roof and a series of small, square windows. A dashed line indicates a change in the building's profile. To the right, there is a section with a flat roof and a series of rectangular windows, some of which are grouped together. A small, arched entrance is visible in this section. The drawing uses simple lines and shading to represent the building's form and features.
